

Company Presentation

Liquid Technology

Design - Development - Production
of Lubricants & Automotive Chemicals

Liquid Technology

RS200 motor oil is a modern lubricant & automotive chemical Industry, located in South of Europe (based in the Industrial Park of Lakkoma on Halkidiki, which is 35km from Thessaloniki).

From the established day in 1980 till present, our company follows the same policy & philosophy, producing high quality products, which is the key for a rapidly and a continuously way to the top. Now days **RS200 motor oil** is one of few remained major independent lubricant industries in Europe. We are certified with TUV Cert ISO 9001 for Design, Development & Production of high quality lubricants and automotive chemicals, from 1999 till now. Our company conforms the European Engine Lubricant Quality Management System (EELQMS) and we are enlisted to ATIEL's Letter of Conformance.

Liquid Technology

Our production facility comprises modern bottling and blending machineries, which produces flexible and rapidly our ensured & reliable final products

RS200 motor oil factory possess:

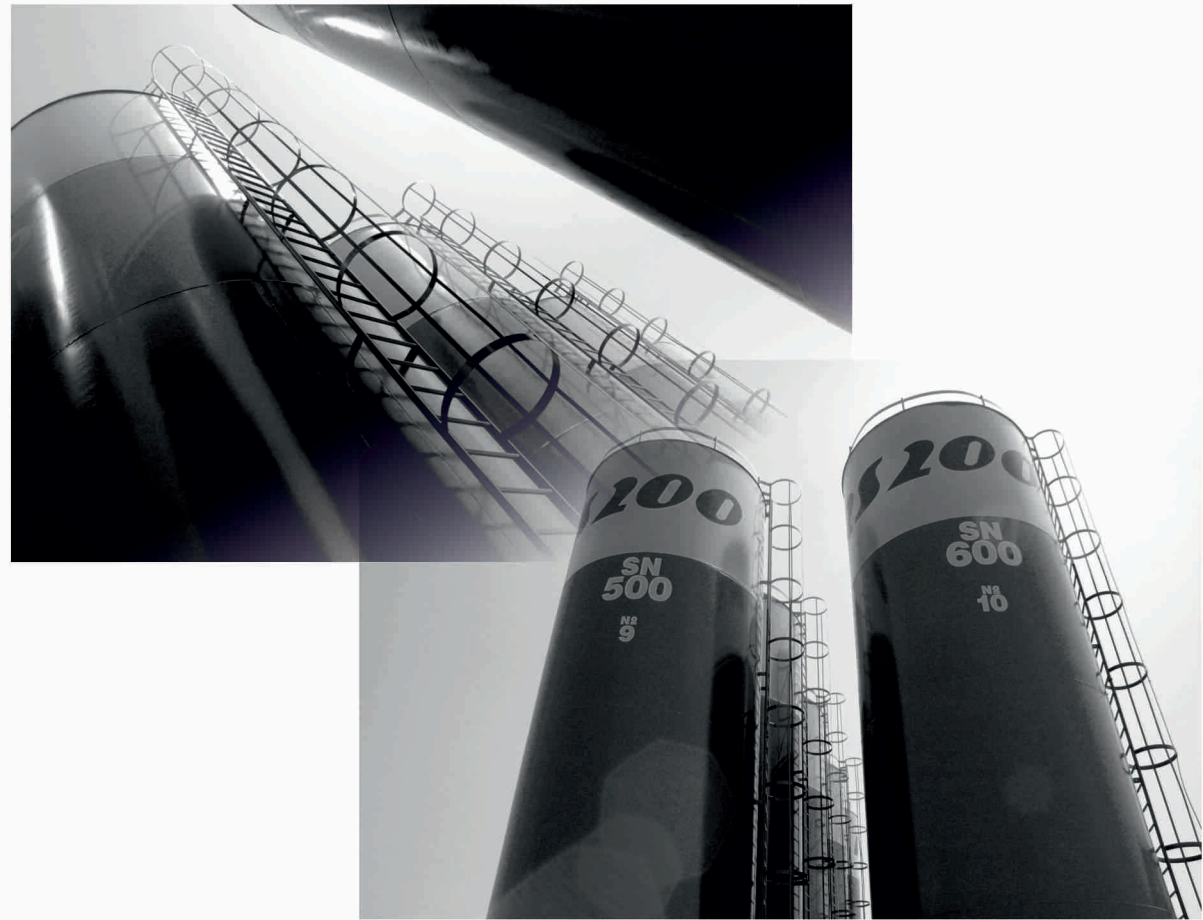

- A) Four (4) productions lines (from 250ml up to 1000L IBCs) fully electronically controlled, which can produce 3.000 bottles of 1L in one (1) Hour.
- B) Seven (7) blending tanks from three (3) to twenty (20) metric tonnes (MT).
- C) Tank farm with capacity of two million liters (2.000.000L).
- D) two (2) fully equipped laboratories in our facilities.
- E) Three (3) loading/unloading ramps for trucks or containers.
- F) Label printers for special products..

Liquid Technology

Tank-farm of 1.700.000 kg for raw materials into our factory.

Our private stocking capacity, provide us the ability to purchase huge quantities of raw materials in low prices by tanker ships. So, our company is totally independent for choosing the identical raw materials all over the world in cost economical prices. Additionally, by this way we have stable prices in our raw materials which means also stable price on finished products for long periods despite the price fluctuations on the international market.

Liquid Technology

All of our packing are designed and produced only for our company and the molds from the plastic bottles are our own private property.

Our design department develops also the packages of our products in order to be attractive and follow our own design line, different from all the others.

Our technical department develops continuously our products due to the most recent specifications and international norms.

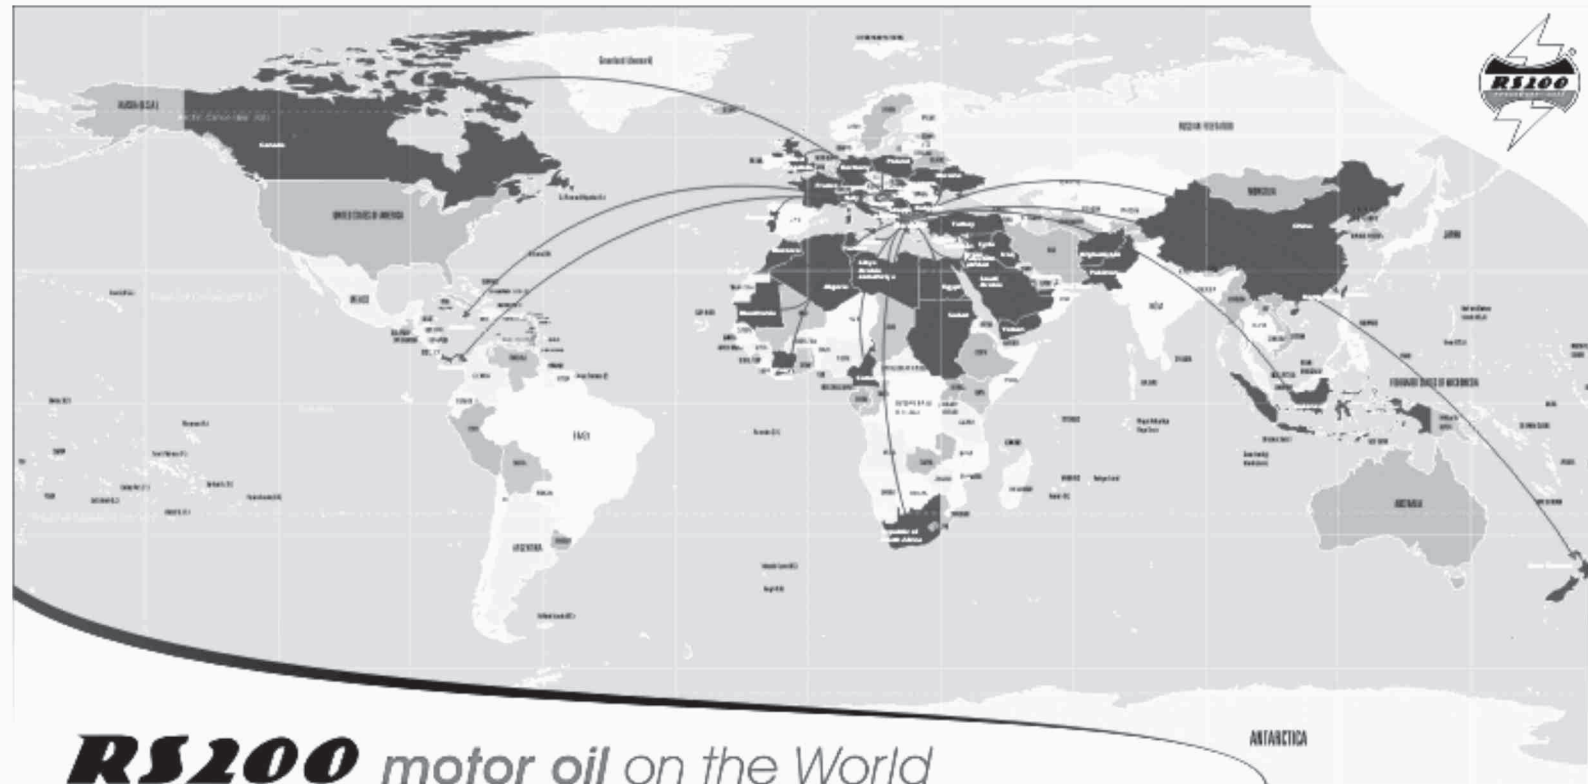

Our harness cooperation with the three (3) biggest additive producers (Infineum-Lubrizol-Afton) does provide us the ability to be informed with the latest developments at the lubricant field.

Liquid Technology

Exports in more than forty (40) countries in five (5) continents all over the world. That shows the fast growing world market share of RS200 motor oil.

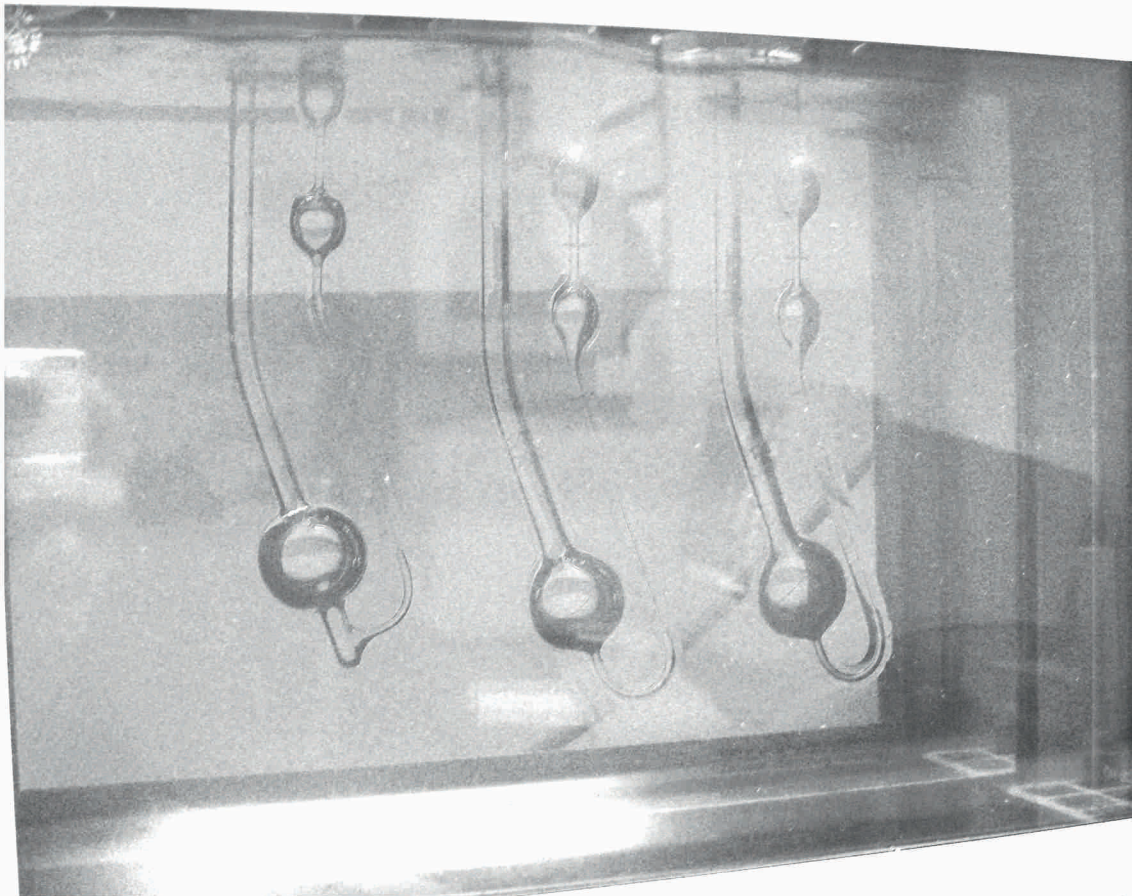

Hellas (Greece) is located in a very strategic geographical thesis in the middle of three (3) continents Europe, Africa & Asia. Greece has access to all shipping lines with economic freight costs for any destination. By this way our basic industrial plant does provides our high quality and guaranteed products all over the world.

Liquid Technology

All of our first materials before being receipt and all of our produced lubricants & chemicals before packaging are analyzed in our chemical laboratory.

Our private chemical laboratory is equipped with all the necessary laboratory equipments for the first material or final products analysis. Also we keep samples from all of our produced lubricants for two (2) years.

We can provide the advantage to our industrial or marine customers to analyze their used lubricants and inform them about the lubricant life.

Liquid Technology

Continuously participation in the largest and most famous International Exhibitions at the automotive parts field.

From 1990 till now we participate in the No.1 exhibition at the automobile parts (Automechanika Frankfurt). Beside this exhibition we participate in other famous exhibitions like Equip Auto in Paris (from 2001 till now), Motorshow in Bologna, Automechanika in St' Petersburg etc.

Liquid Technology

Our company's policy is to supply only high quality products for to achieve fully consumer's satisfaction as our best advertise are our products.

Our certified with ISO 9001 products and also approved from the biggest automobile constructors such as Daimler Chrysler, Volvo, Man etc. It is important to emphasize that we do not use at all any type of recycled materials or low quality raw materials and this for to assure our high quality. Also we are approved from ZF for transmission fluids.

Certificate 71 100 L 011

The management system of

RS200 MOTOR OIL PAPANIOU ABEE

Industrial Park of Lakkoma
GR-63080 Halkidiki, Greece

has been assessed and certified as meeting the requirements of

ISO 9001:2008

for the following activities

design, development and production of lubricating and chemical products

Further clarifications regarding the scope of this certificate and the applicability of ISO 9001:2008 requirements may be obtained by consulting the organization

This certificate is valid from 13/01/2011 until 12/01/2014
